# PUBLIC SAFETY COMMUNICATIONS SEMINAR

## **REGISTER NOW!**

Hosted by Safer Buildings Coalition leadership, with subject experts from our sponsor members, this interactive seminar is based on model codes regarding in-building public safety communications systems.

**Agenda:**

- Emergency Responder Radio Communications Systems (ERRCS): General Requirements Review
- The important role of the Frequency License Holder/Radio System Administrator
- Designing to minimize noise and interference
- National and Local Code Requirements for Public Safety Radio Communications
- Recent and Planned Code Updates – NFPA, IFC, Local Amendments
- System Testing and Best Practices
- NEW - Info about NICET Certification for Designers and Technicians
- Panel Discussion, Local Town Hall and Q&A

**Vendor Exhibits!**

**Lunch Provided!**

**Most Registrations are Free!\***

- In-Building Wireless and Fire Alarm Industry attendees who are not Safer Buildings Coalition Members \$195 per seat
- In-Building Wireless Industry attendees limit: 2 Seats Per Company

**COVID-19 NOTICE:** CDC and local guidelines current at the time of the event will be followed to assure attendee's safety. Detailed measures will be communicated shortly before the event. If you do not agree to these measures, you may cancel your registration without penalty.

**IMPORTANT NOTE TO COMMERCIAL ATTENDEES**

Safer Buildings Coalition training and seminar events are in high demand. WE ASK THAT:

- Safer Buildings Coalition reserves the right to limit the number of attendees at any event.
- Commercial attendees must refrain from prospecting or performing any sales or marketing activities at these educational events. Safer Buildings Coalition reserves the right to remove anyone violating this restriction.

\*Wireless and Fire Alarm Industry Staff who are not SBC Members: \$195. All others are FREE!
